Allowable Subject Matter

Claims 1-6, 8-17 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, while a method of providing a first pane, a second pane, and adhering a spacer between the first and second panes is well known in the art, prior art fails to disclose the step of applying a deposit forming material to at least a portion of the periphery of the first pane while at least a portion of the first face of the first pane is shielded by a mask. Claims 1-6 depend from claim 1.

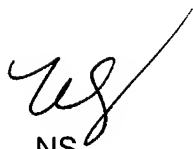

Regarding independent claim 14, while it is known in the art to provide an insulating glass unit comprising a first pane, second pane, and a spacer extending therebetween, prior art fails to disclose the steps of applying a first mask to the first face of the first pane, applying a first deposit to at least a portion of the periphery of the first pane, removing a first portion of the first mask to expose an unmasked portion of the first face of the first pane while a second portion of the first mask remains disposed over a masked portion of the first face of the first pane, and bonding a sash to the unmasked portion of the first face of the first pane. Claims 8-13, 15-17 depend from claim 14.

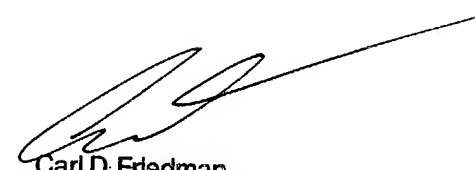

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance."
